Thank you Ben, this is quite helpful. I've not been able to reach Katie today but hope to do so sometime today or tomorrow.

Subject: NM nutrients

Hi Forrest;

I tracked down the people involved in the NM nutrients contract.

Since the watersheds contract is being used and Mike Paul is the Tetra Tech lead on that, he has been in contact with Aileen Molloy and Katie Flahive of EPA about setting up meetings. Katie is apparently the one who is coordinating with NM. They have a similar project in Utah and have been discussing that at the same time. I will be on the call for the NM project and will be involved throughout.

Hope that helps!
